JUST CHARGE IT

Charging the earbuds is so easy you've probably figured it out by now, but in case you've got two options, you can charge it using your computer or a wall outlet. The Transit Evo Buds need about 2.5 hours for up to 7 hours of play time.

1. The cord that came with the earbuds — the one with the USB on one end and the micro USB on the other — will work with your computer.

2. If you want to use the wall outlet, you'll need to pick up a power cord with a micro USB on the next time you're at the store, or use any USB AC adapter, including the one for your cell.

SHED SOME LIGHT

The LED light on your earbuds let you know what they're doing.

CONTROL YOUR DESTINY...OR AT LEAST YOUR EARBUDS

1. Play/Pause, press and hold for 3 seconds to power on
2. Volume down/ Previous Track
3. Volume up/ Next Track
4. Power cord goes here
5. Shed some light on what your earbuds are doing (see chart to left for details).

BLUETOOTH® CONNECTION — IT'S A SETUP

Like any amazing couple, this one starts with a connection — one between your device and the earbud's *Bluetooth*. Here's how it works:

1. Make sure the smartphone, tablet, or computer you're using with the earbuds has *Bluetooth*.
2. Turn on the earbuds and look for the little blinking light.
3. Do whatever your device needs you to do on its end.
4. Look for Jam Transit Evo Buds in your device's *Bluetooth* list or click YES.
5. Now hit PLAY on your earbuds and crank it up — or down if you're lame.

The device and *Bluetooth* will find each other every time, as long as the earbuds are set to *Bluetooth* and your device's *Bluetooth* is, you know, on.

If you're connecting to a computer, you may have some extra steps on that end. You'll have to get that information from the computer company.

Depending on your device, you may be prompted to enter a pairing code. If prompted, enter "0000" as the code.

To disable pairing of an existing device and pair a new device, press and hold the play/pause button for 3 seconds to activate pairing mode.

Note: If you turn on your Transit Evo Buds but haven't started the party yet, it will automatically power off after 2 minutes of unpaired inactivity.

COMING CLEAN

A soft, dry towel is all you need to clean off your earbuds. Using water, harsh cleaners, or anything else only starts messing with the mechanics inside. So, yeah, don't do it. Remember to keep the top flap flush with the earbuds for the best protection.

LITTLE BIT OF SWEAT? NO WORRIES.

Working out? Not a problem. These earbuds are totally sweat resistant! The smart folks who made these earbuds designed them to keep the party going through just about any activity (they call it IPX4) But those designers aren't miracle workers. Doing something like going for a swim in the deep end while wearing your earbuds will eventually fill those holes you need for incredible sound with water. Remember to keep the top flap flush with the earbuds for the best protection.

LOOK MA, NO HANDS!

When friends call to interrupt your party of one – and you know they will – answer the phone without disconnecting from your JAM Transit Evo Buds. Yes, that's right. Your earbuds have hands-free calling too. How amazing is that? Here's how it works:

1. Make sure your phone and earbuds are connected through *Bluetooth*.
2. Answering and ending a call works the same way: simply click the PLAY/PAUSE button on your Transit Evo Buds.
3. If you'd rather not talk, hold down the PLAY/PAUSE button on your Transit Evo Buds for 3 seconds to ignore the call.

THE COOLEST PART: The Transit Evo Buds know when a call is coming in and pause the music before ringing. When you hang up, the music starts where it left off – and so does the party. If it's you making the call, just start dialing from your phone, and the Evo Buds automatically do their hands-free thing. Isn't it refreshing to know your earbuds get you?

Check out the chart below for a complete guide on handling calls with your Transit Evo Buds.

| Situation | Short Press Play/Pause Button | Long Press Play/Pause Button |
|-------------------------------|----------------------------------|--|
| 1 st Incoming call | Pick up call | Reject call |
| On call | End call | Move call from earbuds to device |
| 2 nd Incoming call | Call 1 on Hold, Pick-Up call 2 | Reject call 2 |
| Both calls Active | Hang up call 1, Switch to call 2 | Switch between 1 st call and 2 nd call |

STUFF THE GOVERNMENT MAKES US SAY

FCC Compliance:

Note: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: Changes or modifications not expressly approved by HMDX could void the user's authority to operate this equipment.

IC Caution: RSS-GEN Issue 4 December 2014

This device complies with Industry Canada's licence-exempt RSSs.

Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

STUFF OUR LAWYERS MAKE US SAY

IMPORTANT SAFEGUARDS:

When using an electrical product, basic precautions should always be followed, including the following:

READ ALL INSTRUCTIONS BEFORE USING

- **WARNING:** Listen responsibly. To avoid hearing damage, make sure the volume on your device is turned down before connecting earbuds. After placing earbuds in your ears, gradually turn up the volume until you reach a comfortable listening volume.
- Use this product only for its intended use as described in this manual. Do not use attachments not recommended by HMDX.
- HMDX is not liable for any damage caused to smartphones, iPod/MP3 players, or any other device.
- Do not place or store this product where it can fall or be dropped into a tub or sink.
- Do not place or drop into water or any other liquid.
- Not for use by children. THIS IS NOT A TOY.
- Never operate this product if it has a damaged cord, plug, cable, or housing.
- Keep away from heated surfaces.
- Only set on dry surfaces. Do not place on surface wet from water or cleaning solvents.

Attention California Residents:

WARNING: This product contains chemicals known to the State of California to cause cancer, birth defects, and other reproductive harm.

The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by HMDX is under license.

A MESSAGE FROM THE ENVIRONMENT

WARNING:

This product has an internal, non-replaceable lithium battery. Please dispose in accordance with your local, state, province, and country guidelines.

This product contains small parts that may present a choking hazard for young children.

CAUTION: All servicing of this product must be performed by authorized HMDX Service Personnel only.
