Register your speaker! Information about where you bought it and how you're using it is like gold for the people who make these speakers.

To register, visit:

USA: www.jamaudio.com/customer-support/product-registration

CAN: <http://canada.jamaudio.com/product-registration>

JUST CHARGE IT

Charging the speaker is so easy that you've probably figured it out by now, but just in case, you've got 2 options: You can charge it using your computer or a wall outlet. The Zeo needs about 2 hours of charging for up to 5 hours of party time.

1. The cord that came with the speaker — the one with the USB on one end and the micro USB on the other — will work with your computer.
2. If you want to use the wall outlet, you'll need to pick up a power cord with a micro USB the next time you're at the store, or use any USB AC adapter, including the one for your cell phone.

BLUETOOTH® CONNECTION — IT'S A SETUP

Like any amazing couple, this one starts with a connection — one between your device and the speaker's *Bluetooth*. Here's how it works:

1. Make sure the smartphone, tablet or computer you're using with the speaker has *Bluetooth*.
2. Turn on the speaker (press and hold the POWER button for 3 seconds) and look for the little blinking light.
3. Do whatever your device needs you to do on its end.
4. Look for JAM Zeo in your device's *Bluetooth* list, or click YES.
5. Now hit PLAY on your speaker and crank it up — or down, if you're lame.

Continued on page 2.

Bluetooth®

Devices

JAM Zeo

BLUETOOTH® CONNECTION, CONTINUED

The device and *Bluetooth* will find each other every time, so long as the speaker is set to *Bluetooth* and your device's *Bluetooth* is, you know, on.

If you're connecting to a computer, you may have some extra steps on that end. You'll have to get that information from the computer company.

Depending on your device, you may be prompted to enter a pairing code. If prompted, enter "0000" as the code.

To disable the pairing of an existing device and to pair a new device, press and hold the PLAY/PAUSE button for up to 15 seconds to activate Pairing mode.

Note: If you turn on your Zeo but haven't started the party yet, it will automatically power off after 2 minutes of unpaired inactivity.

Note: Once you've paired, if you pause the party for 15 minutes or more, the JAM Zeo will automatically shut off to preserve battery power.

⌚ 15m

HOOKING UP OLD-SCHOOL AUDIO JACK

1. Plug one end of the cord into the speaker and the other into the headphone jack on your device.
2. Turn on the speaker.
3. Hit PLAY on your device and crank it up — or down, if you're lame.

You'll have to play and pause the music from your device, not your speaker. No problem — you're there anyway, right?

Auxiliary cable not included.

COMING CLEAN

A soft, damp towel is all you need to clean off your speaker. Using water, harsh cleaners or anything else only starts messing with the mechanics inside. So, yeah — don't do it.

PUTTING ON A SHOW!

The JAM Zeo comes with 4 distinct light programs that allow you to throw your own light party.

1. **ON/FADE:** Press the Light Show Select  button to turn the LED lights on. The LED lights will softly fade in and out while changing colors.
2. **COLOR CHANGE:** Press  again, and the LED lights will change from one color to the next.
3. **COLOR SELECT:** Press  a third time, and the LED lights will stay on the color that is selected.
4. **MOVE TO THE BEAT:** Press  a fourth time to make the LED lights move to the beat of the music.
5. **OFF:** Press  a fifth time to turn the LED lights off.

HELLO? SPEAKERPHONE? YES!

When friends call asking to join the party — and you know they will — answer the phone without disconnecting from your JAM Zeo. Yes, that's right: Your speaker is a speakerphone, too. How amazing is that? Here's how it works:

1. Make sure your phone and speaker are connected through *Bluetooth*.
2. Answering and ending a call work the same way: simply click the PLAY/PAUSE button on your Zeo.
3. If you'd rather not talk, hold down the PLAY/PAUSE button on your Zeo for 3 seconds to ignore the call.

THE COOLEST PART: The Zeo knows when a call is coming in and pauses the music before ringing. When you hang up, the music starts where it left off — and so does the party. If it's you making the call, just start dialing from your phone, and the Zeo automatically does its hands-free thing. Isn't it refreshing to know your speaker totally gets you?

Check out the chart below for a complete guide to handling calls with your Zeo.

Situation	Short Press PLAY/PAUSE Button	Long Press PLAY/PAUSE Button
First incoming call	Pick up call	Reject call
On call	End call	Move call from speaker to device
Second incoming call	Call 1 on hold, pick up call 2	Reject call 2
Both calls active	Hang up call 1, switch to call 2	Switch between call 1 and call 2

THE VOICE FROM WITHIN

When your JAM Zeo isn't rocking out, it can tell you all sorts of things it's doing: when it's powering on, ready to pair, paired, at maximum volume, charging, receiving a call, ending a call, rejecting a call and powering off.

Just like the global gadget it is, your speaker toggles between several languages or no language at all. Your speaker can parley with you in English, Spanish, French or Portuguese. Making the change between language and tone is as simple as pressing and holding the + and - buttons together. Click through until the speaker starts speaking your language.

1-YEAR LIMITED WARRANTY

For detailed warranty instructions and information, visit:

USA: www.jamaudio.com/customer-support/warranty-1yr

To obtain warranty service on your JAM product, contact a Consumer Relations representative by telephone or email for assistance (you can find their contact info on page 1). Please make sure to have the model number of the product available.

STUFF THE GOVERNMENT MAKES US SAY

FCC Compliance:

Note: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or TV reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC SAR Evaluation:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Note: Changes or modifications not expressly approved by HMDX could void the user's authority to operate this equipment.

IC Caution: RSS-GEN Issue 4 December 2014

This device complies with Industry Canada's license-exempt RSSs. Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

IC SAR Evaluation:

This device is compliant with RF exposure guidelines; users can obtain Canadian information on RF exposure and compliance.

STUFF OUR LAWYERS MAKE US SAY

IMPORTANT SAFEGUARDS:

When using an electrical product, basic precautions should always be followed, including the following:

READ ALL INSTRUCTIONS BEFORE USING

- **WARNING:** Do not place speakers too close to ears. May cause damage to eardrums, especially in young children.
- Use this product only for its intended use as described in this manual. Do not use attachments not recommended by HMDX.
- HMDX is not liable for any damage caused to smartphones, iPod/MP3 players, or any other device.
- Do not place or store this product where it can fall or be dropped into a tub or sink.
- Do not place or drop into water or any other liquid.
- Not for use by children. THIS IS NOT A TOY.
- Never operate this product if it has a damaged cord, plug, cable, or housing.
- Keep away from heated surfaces.
- Only set on dry surfaces. Do not place on surface wet from water or cleaning solvents.

Attention California Residents:

WARNING: This product contains chemicals known to the State of California to cause cancer, birth defects, and other reproductive harm.

A MESSAGE FOR THE ENVIRONMENT

WARNING:

This product has an internal, non-replaceable lithium battery. Please dispose of in accordance with your local, state, province, and country guidelines.

This product contains small parts that may present a choking hazard for young children.

CAUTION: All servicing of this product must be performed by authorized HMDX Service Personnel only.
